

**Resource Report No. 11
Reliability and Safety**

FERC Docket No. CP09-____-000

January 2009

Resource Report No. 11 Reliability and Safety		
Summary of Filing Information		
Information	Where Found in Document	Comments
1. Describe how the project facilities would be designed, constructed, operated, and maintained to minimize potential hazard to the public from the failure of project components as a result of accidents or natural catastrophes. (§ 380.12(m))	11.0	

11 Reliability and Safety

No new or re-commissioned liquefied natural gas (LNG) facilities are proposed as part of the Project; therefore, a detailed evaluation for Resource Report 11 is not required.

Ruby will operate and maintain the Project facilities in accordance with the regulations of the USDOT Minimum Federal Safety Standards specified in 49 CFR 192. The Project facilities will also be operated and maintained in accordance with the manufacturer's instructions in order to minimize potential hazards to the public from their failure. Facility safety procedures will remain the same as they were prior to the Project.
