

RUBY PIPELINE, L.L.C.
DOCKET NO. CP09-____-000
SAMPLE LANDOWNER NOTIFICATION PACKAGE
EXHIBIT Z-2

January ____, 2009

**Re: Ruby Pipeline, L.L.C.
Ruby Pipeline Project
Docket No. CP09-__-000**

Dear Landowner:

Ruby Pipeline, L.L.C. ("Ruby"), with its principal office located at 2 North Nevada, Colorado Springs, Colorado 80903, is a company seeking to become a natural gas company that will be primarily engaged in the open-access transportation of natural gas in interstate commerce.

In that respect, on January XXX, 2009, Ruby filed an application with the Federal Energy Regulatory Commission ("FERC") for a certificate of public convenience and necessity authorizing the authorizing the construction and operation of large diameter pipeline, compression and metering facilities, with appurtenances, to be located in Lincoln and Uinta Counties, Wyoming; Rich, Cache and Box Elder Counties, Utah; Elko, Humboldt and Washoe Counties, Nevada; Lake and Klamath Counties, Oregon. This project, referred to as the "Ruby Pipeline Project" or "Project," will allow Ruby to provide new natural gas transportation from the Rocky Mountains to consumers throughout the Project area, including the Pacific Coast (Washington, Oregon, and California) and Nevada. The Project is comprised of approximately 675.2 miles of 42-inch diameter natural gas pipeline, along with associated compression and measurement facilities, located between Opal, Wyoming and Malin, Oregon. An approximate 2.6-mile lateral, the PG&E Lateral, would also be constructed south from the Malin Hub. Ruby has attached a location of facilities map with this letter showing the location of the Project.

If you are interested in reviewing Ruby's FERC application for the Project, copies of the complete application will be made available for public viewing at the locations as provided on the enclosed list.

The Project is also available online at FERC's website using the "elibrary" link at <http://www.ferc.gov>. The FERC docket number assigned to this proceeding is Docket No. CP09-__-000. Additionally, a paper copy of the application may be requested from:

Richard Derryberry, Director
Regulatory Affairs Department
Colorado Interstate Gas Company
2 North Nevada Avenue,
Colorado Springs, Colorado 80903
(719) 520-3782

Ruby is also enclosing, for your information, a copy of the FERC's most recent landowner pamphlet titled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This brochure explains the FERC's certificate process and addresses some of the basic concerns of landowners. The FERC's Office of External Affairs at 1-866-208-FERC (3372) or 1-202-208-1088 will be happy to answer any further questions about the procedures involved. Ruby has also enclosed a copy of the FERC's notice of application that provides the date by which timely motions to intervene are due.

Ruby strives to be a good neighbor as it provides a safe, clean and reliable source of energy to your area. If you have any questions or comments regarding this project, please do not hesitate to contact me at 1-877-598-5263.

Respectfully,

Ruby Pipeline, L.L.C.

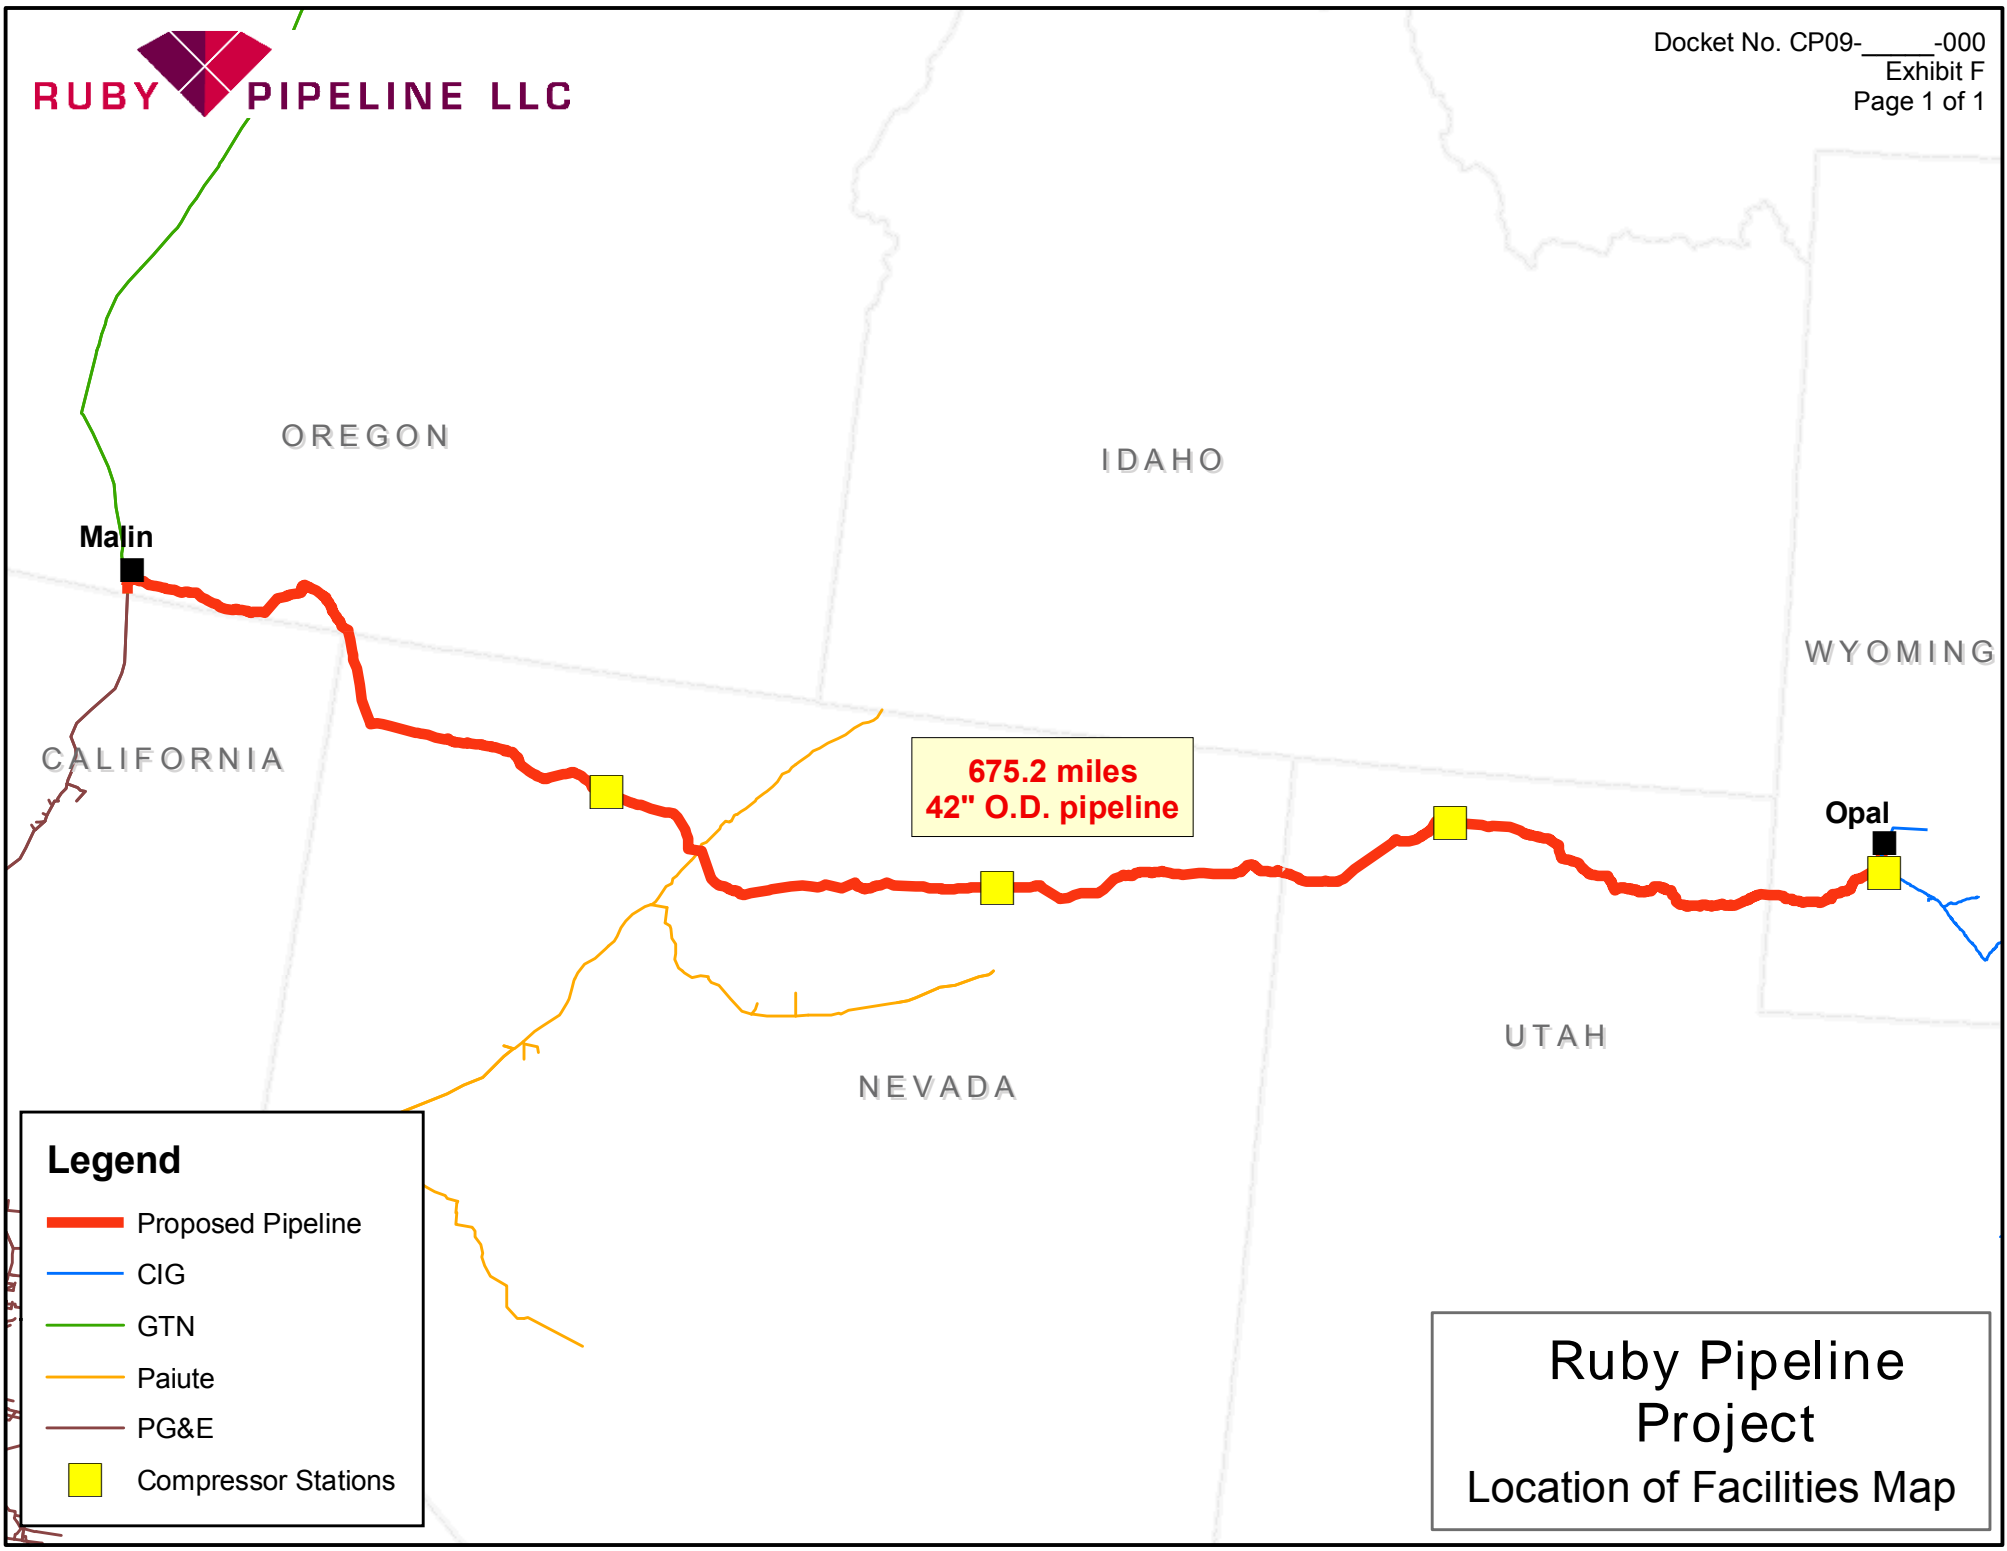

Daniel Gredvig
